

MEET THE DESIGNER

# BRIAN ANDERSON

Great design is the result of reflecting your unique preferences and personality while leveraging the experience of our exceptional design team.

As one of the designers at Thurston Kitchen and Bath's Telluride showroom, Brian is an expert at ensuring projects are completed to perfection.

#### Professional Background

Brian has lived in Telluride for 13 years and has been designing Kitchens and Baths for Thurston's since 2002. He brings a life-long passion for architecture and furniture design along with 20 years of project management experience to assist his clients in designing kitchens that are both aesthetic and functional. Brian received his Bachelor of Science Degree from Arizona State University and has attended post-graduate classes at the Minneapolis College of Art and Design.

#### Approach to Design

Brian enjoys working with homeowners, architects and builders in the collaborative and creative process of designing and building great kitchens. To achieve that end Brian will listen and devote the time required to generate ideas, explore materials and create the final details of a pleasing and deeply functional design.
